SPCDE.ORG@GMAIL.COM

Attend in-person or via Zoom:

<https://us06web.zoom.us/j/83129236379>

Our Guest Speaker will be Anne Canby from Rethinking Delaware.

Rethinking Delaware is a coalition of organizations and individuals concerned with several interrelated challenges confronting the state including environment related threats, distressing health trends, and shortages in affordable housing.

Rethinking Delaware believes that fashioning policy responses requires decision makers at state, county and local levels to recognize how challenges are affected by our current land use and transportation policies. To make change, we need to build the political will to modify or and in some cases abandon land use and transportation practices that are decades old. Rethinking Delaware is working to document the problems, identify the steps necessary to make progress, and to mobilize support.

Anne Canby has served in many different roles in the transportation field during her career including the first woman to lead both the Delaware and New Jersey Departments of Transportation. In addition, she served as the Treasurer of the

Massachusetts Bay Transportation Authority and a Deputy Assistant Secretary of the U. S. Department of Transportation.

She currently chairs the Advisory Board for the University of Delaware's Railroad Engineering program. She has served on the executive committee/board of the Transportation Research Board, the American Association of State Highway Transportation Officials and the Mine Transportation Institute and was a member of the U. S. DOT's National Freight Advisory Canby received the Carey Distinguished Service Award for outstanding leadership and service to transportation research and to the Transportation Research Board. She has been inducted into the Delaware Women's Hall of Fame.

Also - quick updates on timely topics that SPC has been following closely.
